Results-driven Software Engineer with strong problem-solving abilities and excellent communication skills. Passionate about developing efficient, scalable, and high-quality software solutions. Adept at collaborating with cross-functional teams to drive innovation and deliver impactful results.

Education

Dec 2022 – Jul 2026

PUCIT

CGPA: 3.90 / 4.0 (Jul 2026)

Relevant courses: OOP, DSA, Web Engineering, Software Engineering, .NET, Database, Programming Fundamentals, OS, Machine Learning, Software Construction & Development, BPE.

Technical Skills

Software/Tools: Microsoft Office, VS Code, Visual Studio Code, IntelliJ IDEA

Programming Languages: C/C++/C#, Python, Java, HTML, CSS, JS, SQL

Databases: Oracle, MySQL

Framework: Bootstrap, .Net

Projects

Dec 2024

Food Ordering App

- Customers are able to browse available food items and place orders effortlessly.
- Owners can approve or disapprove orders based on availability.
- If no rider is available, customers receive a delay notification.
- Frontend built with HTML, CSS, and JavaScript, while the backend, developed in Java, is connected to a database and incorporates state and session management for a seamless user experience.

Feb 2024

Community Book Exchange Platform *(in progress)*

- Built a peer-to-peer book sharing platform where users can list, browse, and borrow books within their local community.
- Implemented user authentication and book management system to track book availability and borrowing history.
- Technologies: ASP.NET MVC, C#, Bootstrap 5, ADO.NET, SQL Server

Activities

TA-Ship: Have been TA of different programming related courses.

Competitive Coding: Have been taking part in CP contests which have improved my problem solving skills,

Self-Learning: Have taken different playlists on YouTube for DSA, OOP, WEB and different programming languages for self-learning.

Declamation: Have been participating in different declamation contests from fourth class which have improved my communications skill and confidence to deliver in front of the audience.
